Announcement
Numerical Taxonomy Conference

The twenty-first annual meeting of the Numerical Taxonomy Conference (NT-21) will take place October 23-25, 1987, at the Friday Harbor Laboratories of the University of Washington. The laboratories are in Friday Harbor, Washington, on San Juan Island, located between the mainland and Vancouver Island. The meetings will convene on the evening of the 23d (a bus will leave Seattle shortly after noon). We hope to have a variety of contributed papers and posters on numerical approaches to systematic, evolutionary, and morphometric questions. Interested persons should write to the conference organizer, Joseph Felsenstein, Department of Genetics SK-50, University of Washington, Seattle, Washington 98195.
